

## NLGI CLGS Breakout Session

September 18, 2018

A group met at the Hyatt O'Hare hotel between 1:30-2:30 PM.

1. How could we better promote the CLGS Exam to get more to take it.
  - a. Could the exam be offered at other meetings, such as:
    - i. ELGI
    - ii. NLGI India
    - iii. CLGI
    - iv. STLE Meeting
  - b. Could we get End-User recognition?
2. Could we expand the offering of it at other times of the year?
  - a. See above
  - b. Tossed out online, but this was sort of shot down due to cheating
3. Could the exam be updated regarding questions, grading, background of the taker, etc.?
  - a. Described content, feeling was that for many takers increased number of applications questions could add value.
  - b. Transfer the main question database to an Excel Spreadsheet from Word Doc.

### Comments:

- Could NLGI offer a topic guide class?
- Discussion arose about the value of the CLGS to industry. Who wants it? Perhaps promotion to end-users could help.
- Questions should be provided to the education committee, so they can better prepare their content to teach the subject matter of the questions.
- Also discussed renewal. Felt there were some limitations in how one maintains their CLGS due to cost. The STLE CLS has 13 options and some are not costly at all.

### Actions and Timeline

- Transfer questions immediately from Word Doc to Excel
- End of October/Beginning of November to get a group call together and send out the new Question Master list
- Have Master List questions updated by Mid-March to provide time to create a new exam from scratch out of updated questions.
