## **FUCHS Lubricants Co. Certifies Five HPM Products, Including Three Products with Enhanced Performance Tags**

RENOLIT CXS BGR is now approved against the NLGI HPM certification. In addition to the HPM core certification, RENOLIT CXS BGR also obtained the +HL tag for enhanced level of performance in the high load category as well as the +LT tag for enhanced level of performance in the low temperature category.

STABYL LX 460 SYN is also approved against the NLGI HPM certification. In addition to the HPM core certification, STABYL LX 460 SYN also obtained the +HL tag for enhanced level of performance in the high load category. Furthermore, RENOLIT CXS CRM 1, GLEITMO 680 XT, and RENOLIT LX 2 are also approved against the NLGI HPM certification.

The HPM Grease Certification Program ensures that all certified greases meet or exceed the High-Performance Multiuse grease specification requirements in the areas of mechanical stability, oil separation, water resistance, heat tolerance, corrosion resistance and load carry capacity. All licensed HPM brands undergo rigorous qualification testing using independent laboratories to ensure they meet the HPM performance requirements.

“Building on our global technical know-how and application expertise, FUCHS is pleased to receive HPM certification for five products covering a wide and diverse range of market segments, industries, and end-user applications. This achievement is another example of how FUCHS continuously strives for the most innovative and effective grease product solutions for our customers,” stated Anuj Mistry, Product Manager – Grease.

NLGI is pleased to certify these high-performance products into the marketplace. For a list of HPM certified products, please visit: <https://www.centerforqa.com/hpm-licensed-brands/>

**About NLGI:** As a nonprofit trade association founded in 1933 by pioneers of the lubricating grease industry, the National Lubricating Grease Institute (NLGI) was established with the goal of providing education, scientific and technical information, expert advice, profitable partnerships and a global forum for ideas and innovation. The mission of the organization is “to provide resources relevant to the needs of the global grease community.” Learn more at [www.NLGI.org](http://www.NLGI.org)

**About CQA:** The Center for Quality Assurance (CQA) has over 25 years of experience working with industry partners to advance technology through the design, development and administration of specification programs. Our vision is to be the global leader in providing knowledgeable and innovative programs and solutions that will enhance the quality and application of our client's products and create better experiences for consumers and users.
