## **BASF and Lubrizol sign license agreement for the production and distribution of selected industrial lubricants**

- **Lubrizol will produce specific industrial products under BASF license**
- **Effective April 1, 2024, licensed products will be marketed under a new Lubrizol brand name**

FLORHAM PARK, NJ, January 25, 2024 – BASF Corporation and The Lubrizol Corporation have signed a license agreement for the production and distribution of selected EMGARD® and Plurasafe® industrial lubricant products. The licensing agreement includes the following BASF products: EMGARD 2946; EMGARD CL 4046, 4068; EMGARD EP WG 680; EMGARD HT CL 5220, 5320; Plurasafe CL 6032, 6046, 6068; Plurasafe P 44; Plurasafe WGF 200 E. Effective April 1, 2024, licensed products will be marketed under Lubrizol’s CPI Fluid Engineering brand.

With more than 100 manufacturing sites, sales and technical offices around the world, Lubrizol has been researching, developing, and manufacturing specialty high-performance lubricants for over 95 years.

“With Lubrizol, we have found the right company to license these industrial lubricant products which address specific customer requirements,” said Brian Lieberman, Vice President, Fuel and Lubricant Solutions, BASF.

“BASF and Lubrizol’s agreement represent both organizations’ strong commitment to the markets and customers and will further enhance and expand Lubrizol’s extensive

current portfolio of Industrial Lubricants,” said Michael Brubaker, Vice President, Lubrizol Fluid Engineering. “Lubrizol remains committed to providing the highest level of support and quality of products that our customers have come to know and expect.”

BASF has provided affected industrial lubricant customers with ordering and delivery details for related products, ensuring a smooth transition.

EMGARD® and Plurasafe® are registered trademarks of BASF SE

### **About BASF Fuel and Lubricant Solutions**

The global business unit Fuel and Lubricant Solutions is a leading supplier to the transportation and mineral oil industries worldwide. Offerings cover fuel performance packages, refinery additives, polyisobutenes, engine coolants (Glysantin® brand) and brake fluids as well as lubricant additives, finished lubricants, synthetic base stocks and components for metalworking fluids. The business unit has its main facilities in Ludwigshafen, Germany, Cincinnati and Florham Park in the USA, Nanjing and Shanghai in China, as well as Sao Paulo, Brazil. Research and development is mainly driven out of Ludwigshafen, Germany, Tarrytown, USA and Shanghai, China.
